Assessment by Exhibition Student Exhibition Teachers' Kit

The aim of the Assessment by Exhibition Kit is to make available practical information to help teachers develop and implement an Exhibitions Program, including Roundtable assessment.

The Exhibitions Kit is comprised of two components: a Teacher Booklet of written and text-based materials that provide teachers with a framework for developing Assessment by Exhibition and a DVD disk (or a video) that expand on the approach.

The expectation is that these materials will complement professional development for teachers that will focus on essential learnings, effective pedagogy and authentic assessment.

"Students need reassurance that what they are learning is important."

Nancy Mohr, University Heights HS,
New York

"In this Exhibitions process, students demand excellence of themselves... the process is rigorous and it is the teacher's role to put into place structures that lead to the development of deep understanding."

Rosemary Koina, Canberra HS, ACT

"Kids have to be engaged in their learning to present at Roundtables using their knowledge, sharing it with others outside the school. It is vitally important to students that we take their work seriously..."

Professor Marie Brennan,
University of Canberra
